Selected Projects

Cinema Guide – Movie Discovery Web App

React, TypeScript, Vite, SCSS Modules, React Router, Redux Toolkit, RTK Query

- Built a SPA for browsing movies with random featured hero, genre pages, search with suggestions and detailed movie views.
- Implemented authentication and favourites using Redux Toolkit + RTK Query with cookie-based sessions and protected routes.
- Configured API layer, Vite proxy and typed hooks, keeping data flow predictable and type-safe.

AirNow – Air Quality Monitor

React, TypeScript, Vite, Tailwind CSS, axios, Framer Motion, OpenWeatherMap API

- Developed a real-time air quality app that shows EPA AQI for any city using OpenWeatherMap geocoding and air pollution APIs.
- Created glass-morphism UI with Tailwind CSS, responsive grid layout and color-coded AQI scale via a dedicated utility.
- Used a custom hook for data fetching, localStorage to remember favourite cities and Framer Motion for smooth transitions.

Personal Portfolio – ryspekoff.de

React, TypeScript, Vite, SCSS Modules, React Router, Mapbox GL JS, Vercel Functions, Nodemailer

- Built a responsive portfolio site to showcase projects, skills and contact details with clean navigation and animations.
- Integrated Mapbox GL JS for an interactive map and a serverless contact form using Vercel Functions + Nodemailer.

- Set up linting, type checking and automated deployment to Vercel for a simple CI/CD workflow.

Briaton Lighting – E-commerce Demo (Course Final Task)

Vanilla JS (ES Modules), HTML, CSS, Swiper.js, Tippy.js, JustValidate

- Implemented a lighting catalogue with dynamic rendering from JSON, combined filters, sorting and pagination (6 items/page).
- Built modular JS components for burger menu, city selector, filters, basket, slider, modals and form validation.
- Added 'Deals of the Day' slider (Swiper.js), stock tooltips (Tippy.js) and a validated contact form with POST submission.
